

Abstract template

INTERNATIONAL SYMPOSIUM ON "SCIENCE & ECOTOURISM – 2020" KOBULETI, GEORGIA, 04-08, September, 2020

[Please submit your abstract using the formatting of this template. You can type your text directly into the sections. Please delete the instruction text in square brackets and do a spelling and grammar check before submitting.]

*The abstract should include the sections in this template, but subsections or additional sections are possible, and the section names can be adjusted to suit the abstract. **The abstract should be between 1000 to 2000 words in total (including the references).** Abstracts may contain graphic items (e.g.: figures, tables, formulations, images).*

Times New Roman 12 point should be used for 1st level headings. Times New Roman 11 point should be used for 2nd level headings. The body text should be in Times New Roman, 11 point, single-spaced text. Figure/image and table captions should be in Times New Roman 9 points.

SAVED THE DOCUMENT AS: S&E20_Abtract_FAMILYNAME.docx]

[Title. Use sentence case, Times New Roman, 12-point font size, bold, centered]

Author One¹, Author Two², Author Three³

¹[Affiliation One, email and brief contact details on one line]

²[Affiliation Two, brief contact details on one line]

³[Affiliation Three, add more institutions as required]

[Please, indicate the presenting author with an asterisk (*)]

[Please note that the email will be used only for communication with the authors.]

Abstract summary [use this style font, Times New Roman 12 point, for 1st level headings]

[The abstract summary should be maximum 200 words] and summarise the objectives and key findings. Font should be Times New Roman, font size 11 pt. The abstract summary should not include any figures, tables or extra headers.]

Keywords: [Up to eight keywords can be added here.]

Introduction, scope and main objectives

[In the introduction, state the objectives of the work and provide an adequate background, avoiding a detailed literature survey or a summary of the results.]

Methodology

[Provide sufficient detail to allow the work to be reproduced.]

[Images and figures can be included, and should have a caption below. The images/figure should be of high resolution, at least 300 dpi for colour, 600 dpi for greyscale and 1200 dpi for line art.]

Figure 1: [Image/figure caption with a description, and source if it has been published in another publication]

Results

[Results should be clear and concise.]

Table 1: [Caption with a description, and source if it has been published in another publication]

Discussion

[This section should explore the significance of the results of the work, not repeat them. Avoid extensive citations and discussion of published literature.]

Conclusions

[The main conclusions should be summarized here, and can also include recommendations or suggest application of the results beyond the study.]

Acknowledgements

[List any people to thank or funding sources]

References

[The bibliographical references should be coherent in style and include author names, year of publication of the work cited, title, publisher or publication name and issue number and an online link where available. The author is responsible for verifying each reference against the original publication.

In-text references in the text should be presented by the surname of the author(s) with year of publication.

Reference list is placed at the end of the main text. References should be listed in alphabetical order according to the name of the first author. Private communications, reports not yet accepted for publication, and unavailable documents are not referenced and should be included in the references.
